ROPELLA INDUSTRY EXPERTISE

The commodity chemicals niche forms the building block of the chemical industry as a whole; although many companies are moving towards selling specialty chemicals, they must still have the commodities in order to produce them. Production is capital intensive, with high energy costs required for large-scale continuous manufacturing units. Although there is little in the way of product innovation in this industry, there is always demand for process innovation; by lowering production costs, companies can make their products more marketable, passing these savings on to their customers.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders - because we all know - **the Team with the Best Talent Wins** Especially so, in fast growing organizations.
