ROPELLA INDUSTRY EXPERTISE

In the world of flavorings, a little goes a long way; many flavorants are concentrated such that just a few drops would be sufficient to flavor an Olympic-sized swimming pool (or several). When working with such highly concentrated substances, companies must make sure that everything is exact; the smallest miscalculation can have far-reaching consequences for final products. The science behind taste preferences also go much deeper than many people realize: genetic, physiological, metabolic, and experiential factors all play a role, and must be kept under consideration when developing new flavor combinations.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.
