ROPELLA INDUSTRY EXPERTISE

The inorganic chemicals industry is the bedrock of many other industries, to the extent that traditionally the strength of a national economy was evaluated by the production of sulfuric acid – just one of many inorganic chemicals, which are crucial to the production of fertilizers, surfactants, and in water treatment. New chemistries and technologies continue to add efficiency and new applications for these compounds, to reduce vulnerability to price volatility caused by raw material shortages, and to implement new eco-friendly practices.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the Team with the Best Talent Wins** Especially so, in fast growing organizations.
