## **ROPELLA INDUSTRY EXPERTISE**

Polycarbonate has numerous inherent advantage over other materials. It's lighter than glass, which helps automobiles boost fuel-efficiency. Its use in insulation saves energy, and its sleek functionality adds value to construction, electronics, safety, medical, and ophthalmic uses. In addition to its strength, resistance, and transparency, polycarbonate has a malleability that is lacking in other plastics, making it easy to mold and thermo-form.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the Team with the Best Talent Wins** Especially so, in fast growing organizations.

## **OUR SOLUTIONS**
