ROPELLA INDUSTRY EXPERTISE

Polypropylene, the second-most widely produced plastic, is preferred for a wide variety of industrial settings and consumer goods due to its ability to withstand repeated stress. Most plastic living hinges — the sort of flip-tops often found on shampoo and ketchup bottles — are made of polypropylene. The most common end use for this versatile material is in packaging, not just in these tops, but also in microwave- and dishwasher-safe reusable food containers.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders - because we all know - ***the Team with the Best Talent Wins*** Especially so, in fast growing organizations.
