ROPELLA INDUSTRY EXPERTISE

Robotics is currently one of the fastest-growing industries, and is set to replace as many of half of US jobs in the next couple of decades. They won't reduce the workforce, though: research shows that automation doesn't decrease man-hours, it just shifts them. Aside from the growth of the industry, this is one of the reasons robotics is a great field to work in: much of that shift will be towards programmers and other robotic-support jobs.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders - because we all know - ***the Team with the Best Talent Wins*** Especially so, in fast growing organizations.
