ROPELLA INDUSTRY EXPERTISE

Wind power is one of the most widely-embraced alternative, renewable energy sources around the world. Around 4% of worldwide electric power usage is generated from wind turbines, and Denmark alone generates approximately 40% of its electric power from wind. More than 200,000 turbines — both on-land and offshore, and horizontal- and vertical-axis structures – are in operation worldwide, and 80% of global citizens support the implementation of wind power solutions.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders – because we all know – **the Team with the Best Talent Wins** Especially so, in fast growing organizations.

OUR SOLUTIONS

With over 35 years as a global search leader, delivering the Most Advanced Search Execution Capabilities, Ropella has proven many times over, to be extremely well-versed at solving the most challenging "needle in a haystack" searches. While at the same time managing Talent Selection & Development as a Primary Asset for ROI.

As a bestselling author of *The Right Hire* and a highly experienced practitioner, Patrick Ropella developed the **SMART Search System**®, regarded as one of the most well respected, Talent Centric Executive Search Solutions available.
